

CNS 100 Trend

PRODUCT-NO.: 236526

Heat that works in your space

Even in small or cramped rooms, you shouldn't have to miss out on cosy warmth. That's why this heater is so compact. With a depth of just 10 cm, it is particularly slimline, requiring very little space for installation. Nevertheless, the appliance offers you excellent thermal comfort.

Enjoy a wide range of benefits

Although the wall mounted convector blends very discreetly into your room, it supplies heat efficiently. Useful features contribute to its efficiency: the weekly timer and open window detection make operation easier for you.

The main features

Wall mounted convector – ideal as a supplementary heater or interim heater in spring/autumn

Even, quiet, air heating

Metal casing and slimline design

Operating controls with backlit LCD

Weekly timer, frost protection and open window detection

Control unit with self-learning capability: automatic calculation of the preheat time in timer mode

ON/OFF switch and overheating protection

Installation information

Please ask your local power supply utility or a registered electrician to install appliances that are not fully wired, i.e. ready to plug in. The electrician should also be able to assist you with obtaining the agreement of the respective power supply utility required for the appliance installation.
