

IA 2024 outdoor

OUTDOOR RADIANT HEATER

PRODUCT-NO.: 233889

IA 2024 outdoor radiant heater – outdoor heating for a comfortable atmosphere on the patio.

The infrared shortwave radiant heaters give off pleasant heat, especially for outdoor areas such as patios, balconies and workplace smoking areas. As long as a power outlet is available, these radiant heaters can be up and running almost instantly.

The main features

Infrared shortwave radiant heater with 2 kW heating output

Immediate heat at the press of a button

Installation information

Please ask your local power supply utility or a registered electrician to install appliances that are not fully wired, i.e. ready to plug in. The electrician should also be able to assist you with obtaining the agreement of the respective power supply utility required for the appliance installation.
