

RHW 700

RADIANT HEATER

PRODUCT-NO.: 234428

Experience pleasant heat in a stylish design

The perfect amount of heat for you – this is what sets our radiant heaters apart. The heat is emitted from the appliance in a special way, which you will find very pleasant. At the same time, this heater will be a real design feature in your home, thanks to its slimline design and minimalist glass surface.

Looks that speak for themselves

The appliance owes its visual appeal in part to the masking frame on the back. This conceals the wall mounting bracket and electrical connection after installation. All that remains is for you to choose between a white or black surface. Furthermore, when combined with our room temperature controllers, these heaters have no difficulty complying with the Ecodesign Directive.

RHB 700

Product-No.: 234424

Installation information

Please ask your local power supply utility or a registered electrician to install appliances that are not fully wired, i.e. ready to plug in. The electrician should also be able to assist you with obtaining the agreement of the respective power supply utility required for the appliance installation.
