

ESH 100 H Plus T-IN

WALL MOUNTED CYLINDER

PRODUCT-NO.: 204060

Today, hot water is largely taken for granted. First class storage water heater solutions from STIEBEL ELTRON offer you superlative showering comfort whilst also lowering your domestic hot water bills.

The ESH is like having a hot spring in your bathroom. It can heat the stored water up to a maximum temperature of 75 °C. A timeless design is married with superior corrosion resistance to ensure a long service life and trouble-free showering comfort.

The main features

Precise temperature control with capillary thermostat

User friendly temperature selection with front-mounted dial and LED indicator

Sufficient hot water for multiple draw-off points

“Made in Germany” maintenance-free copper heating element

Durable, corrosion-resistant casing made from tough polypropylene polymer

Current Leakage Limiter (CLL) for protection from electric shock

Protection from electric shock with Earth Leakage Circuit Breaker (ELCB)

User friendly temperature selection up to 75 °C with front-mounted dial and LED indicator

Sufficient water for multiple draw-off points

Type	ESH 100 H Plus T-IN
Part no.	204060

Technical data

Height	505 mm
Width	1007 mm
Diameter	505 mm
Weight	29.5 kg
Installation type	Wall mounting, horizontal
Safety valve	Pressure safety valve
IP rating	IP24
Cable length	1.3 m
Cylinder material	Steel, wet- process enamel
Heating element material	Copper
Thermal insulation material	PU foam
Temperature range	up to 75 °C
Nominal capacity	100 l
Max. water inlet pressure	0.8 MPa
Electrical connection	1/N/PE~220-240 V
Rated current	9.1-9.9 A
Rated output	2,000 W

Installation information

Please ask your local power supply utility or a registered electrician to install appliances that are not fully wired, i.e. ready to plug in. The electrician should also be able to assist you with obtaining the agreement of the respective power supply utility required for the appliance installation.
