

SBP 700 E

HEATING BUFFER CYLINDER

PRODUCT-NO.: 185459

The freestanding cylinders SBP 200 to 700 E SOL are suitable as buffer cylinders for heat pump systems in detached or two-family houses. Through the integral heat exchanger, the SBP E SOL is equipped for combination with a solar thermal system. In addition, threaded electric immersion heaters can be connected. Perfect insulation ensures that the standby losses of these cylinders are remarkably low.

The main features

Buffer cylinder with 100 litres

700 l cylinder

Highly effective insulation for low heat losses (option)

Type	SBP 700 E
Part no.	185459
Rated capacity	720 l
Diameter incl. thermal insulation	910 mm
Height	1890 mm

Technical data

Standby energy consumption/24 h at 65 °C	2,2 kWh
Connection	4 x G2 A
Height of unit when tilted	2000 mm
Weight	185 kg

Installation information

Please ask your local power supply utility or a registered electrician to install appliances that are not fully wired, i.e. ready to plug in. The electrician should also be able to assist you with obtaining the agreement of the respective power supply utility required for the appliance installation.
